

# **Curriculum Vitae**

**Name:** Natalia V. Belosludtseva

**Date and place of birth:** July 20, 1982; Yoshkar-Ola, Russia

Institute of Theoretical and Experimental Biophysics of Russian Academy of Science, 142290 Pushchino, Moscow Region, Russia,

Lab. of Mitochondrial Transport (Prof. G.D. Mironova) /  
Lab. of Pharmacological Regulation of Cell Resistance

Phone/Fax: +7(4967)739-476 / +7(4967)730-553

e-mail: [natago\\_imagination@rambler.ru](mailto:natago_imagination@rambler.ru)

## **Education:**

- 2004 – graduated with honors from the Department of Biochemistry and Molecular Biology (the Biological-Chemical Faculty of Mari State University, Yoshkar-Ola, Russia);
- 2008 – completed the post-graduate study at Russian Academy of Science (Institute of Theoretical and Experimental Biophysics of Russian Academy of Science (ITEB RAS), Pushchino, Moscow Region, Russia);
- 2008 – received a PhD degree in Biochemistry (Russian Academy of Science, ITEB RAS, Pushchino, Moscow Region, Russia).

**Ph.D. Thesis:** Mitochondrial palmitate/Ca<sup>2+</sup>-induced cyclosporin A-insensitive pore: the key features and possible physiological significance.

**Advisor:** Prof. Galina D. Mironova.

## **Research training and experience:**

- Bioenergetics of mitochondria (methods of electrochemistry: potentiometry, amperometry, polarography; spectroscopy techniques: spectrophotometry, fluorometry; methods of protein biochemistry: gel-filtration, gel-electrophoresis etc.);
- Techniques making use of artificial membranes (methods of preparation and working with multilamellar and unilamellar liposomes; column chromatography, fluorescence techniques, etc.);
- Methods of computer science (application of standard software packages for analysis of experimental data).

## **Professional appointments:**

- since 2004 to 2008 – junior researcher (Laboratory of Mitochondrial Transport, Institute of Theoretical and Experimental Biophysics RAS, Pushchino, Moscow Region, Russia)
- since 2008 to 2013 – staff scientist (Laboratory of Mitochondrial Transport, ITEB RAS, Pushchino, Moscow Region, Russia)

- since 2013 to 2014 – senior staff scientist (Laboratory of Mitochondrial Transport, ITEB RAS, Pushchino, Moscow Region, Russia)
- since 2014 to present – senior staff scientist (Laboratory of pharmacological regulation of cell resistance, ITEB RAS, Pushchino, Moscow Region, Russia)

**Fellowships:**

- May, 2014 - Visiting scientist of Helsinki University, Finland, Department of Applied Chemistry and Microbiology, prof. N-E. L. Saris.

**Honours:**

- 2013 – Scholarship for Beginner Scientists from the RF President.

**Scientific interests:**

Mitochondria; mitochondrial permeability transition pore; free fatty acids; palmitate/ $\text{Ca}^{2+}$ -induced pore; ion transport; apoptosis; membrane biology; membrane bioenergetics; structure and functions of coupling membranes.

**List of major publications:**

1. K.N. Belosludtsev, N.V. Belosludtseva, and G.D. Mironova (2005) Possible mechanism for formation and regulation of the palmitate-induced cyclosporin A-insensitive Mitochondrial Pore *Biochemistry (Moscow)*, **70**, pp. 815-821.
2. Konstantin Belosludtsev, Nils-Erik L. Saris, Leif C. Andersson, Natalia Belosludtseva, Alexey Agafonov, Ankit Sharma, Dmitry A. Moshkov, Galina D. Mironova (2006) On the mechanism of palmitic acid-induced apoptosis: the role of a pore induced by palmitic acid and  $\text{Ca}^{2+}$  in mitochondria. *J. Bioenerg Biomembr*, **38**, p. 113-120.
3. Galina D. Mironova, Konstantin N. Belosludtsev, Natalia V. Belosludtseva, Elena N. Gritsenko, Boris I. Khodorov, Nils-Erik L. Saris (2007) Mitochondrial  $\text{Ca}^{2+}$  cycle mediated by the palmitate-activated cyclosporin A-insensitive pore. *J. Bioenerg. Biomembr.*, **39**, p. 167-174.
4. Agafonov A.V., Gritsenko E.N., Shlyapnikova E.A., Kharakoz D.P., Belosludtseva N.V., Lezhnev E.I., Saris N.E., Mironova G.D. (2007)  $\text{Ca}^{2+}$ -induced phase separation in the membrane of palmitate-containing liposomes and its possible relation to membrane permeabilization. *J Membr Biol.* **215**(1), 57-68.
5. Murzaeva S.V., Belosludtseva N.V., Gavrovskaia L., Mironova G.D. (2008) Effect of taurine on the ion transport system in mitochondria. *Biofizika* (Russian). **53**(6), 962-6.
6. Mironova G.D., Shigaeva M.I., Belosludtseva N.V., Gritsenko E.N., Belosludtsev K.N., Germanova E.L., Lukyanova L.D. (2008) Effect of several flavonoid-containing plant preparations on activity of mitochondrial ATP-dependent potassium channel. *Bull. Exp. Biol. and Med.* (Russian), **8**, pp. 195-199.
7. Belosludtsev K.N., Belosludtseva N.V., Mironova G.D. (2008) The role of mitochondrial palmitatat/ $\text{Ca}^{2+}$ -activated pore in palmitate-induced apoptosis. *Biofizika* (Russian), **6**, pp. 6-11.
8. K. N. Belosludtsev, N.-E.L. Saris, N.V. Belosludtseva, A.S. Trudovishnikov, L.D. Lukyanova, G.D. Mironova (2009) Physiological aspects of the

- mitochondrial cyclosporin A-insensitive palmitate/Ca<sup>2+</sup>-induced pore: tissue specificity, age profile and dependence on the animal adaptation to hypoxia. *J. Bioenerg. Biomembr.*, **41**(4):395-401.
9. Belosludtseva N.V., Belosludtsev K.N., Agafonov A.V., Mironova G.D. (2009) Effect of cholesterol on the formation of palmitatat/Ca<sup>2+</sup>-induced pore in mitochondria and liposomes. *Biofizika* (Russian), **54**(3), 464-470.
  10. K. N. Belosludtsev, A.S. Trudovishnikov, N.V. Belosludtseva, A.V. Agafonov, G.D. Mironova (2010) Palmitic acid induces the opening of a Ca<sup>2+</sup>-dependent pore in the plasma membrane of red blood cells: the possible role of the pore in erythrocyte lysis *J. Membr. Biol.* **237**(1), ctp. 9-13.
